**INTEL:**

*location*

- hidden deep in the mountains
- obtain intel from insurgent positions in Georgia (Enguri Dam and Operation Nightshade)

*ground forces*

- infantry and armour
- expect heavy AAA and short to medium range IR and radar guided SAM cover

*airborne threats*

- potentially 3rd gen fighter jets from the Beslan
- Russian air force is flying CAP north of the mountains with modern aircraft (MiG-29S, Su-27, -33) and AWACS support

*priority objectives*

- unconfirmed reports of missing **medium range ballistic missiles** from Russian inventories near Beslan, if encountered neutralise with extreme prejudice
- don't allow the insurgents leadership to escape

**Tactical DCS**

**Dynamic PvE Server**

**INTEL:**

*ground forces*

- infantry and armour in and around the town
- infantry and armour at the dam and power plant
- AAA and short range IR and radar guided AD

*airborne threats*

- minimal, potential 2nd gen fighter jets sneaking through the mountains from the north
- allied AD cover nearby (NAS, Patriot, SA-11)

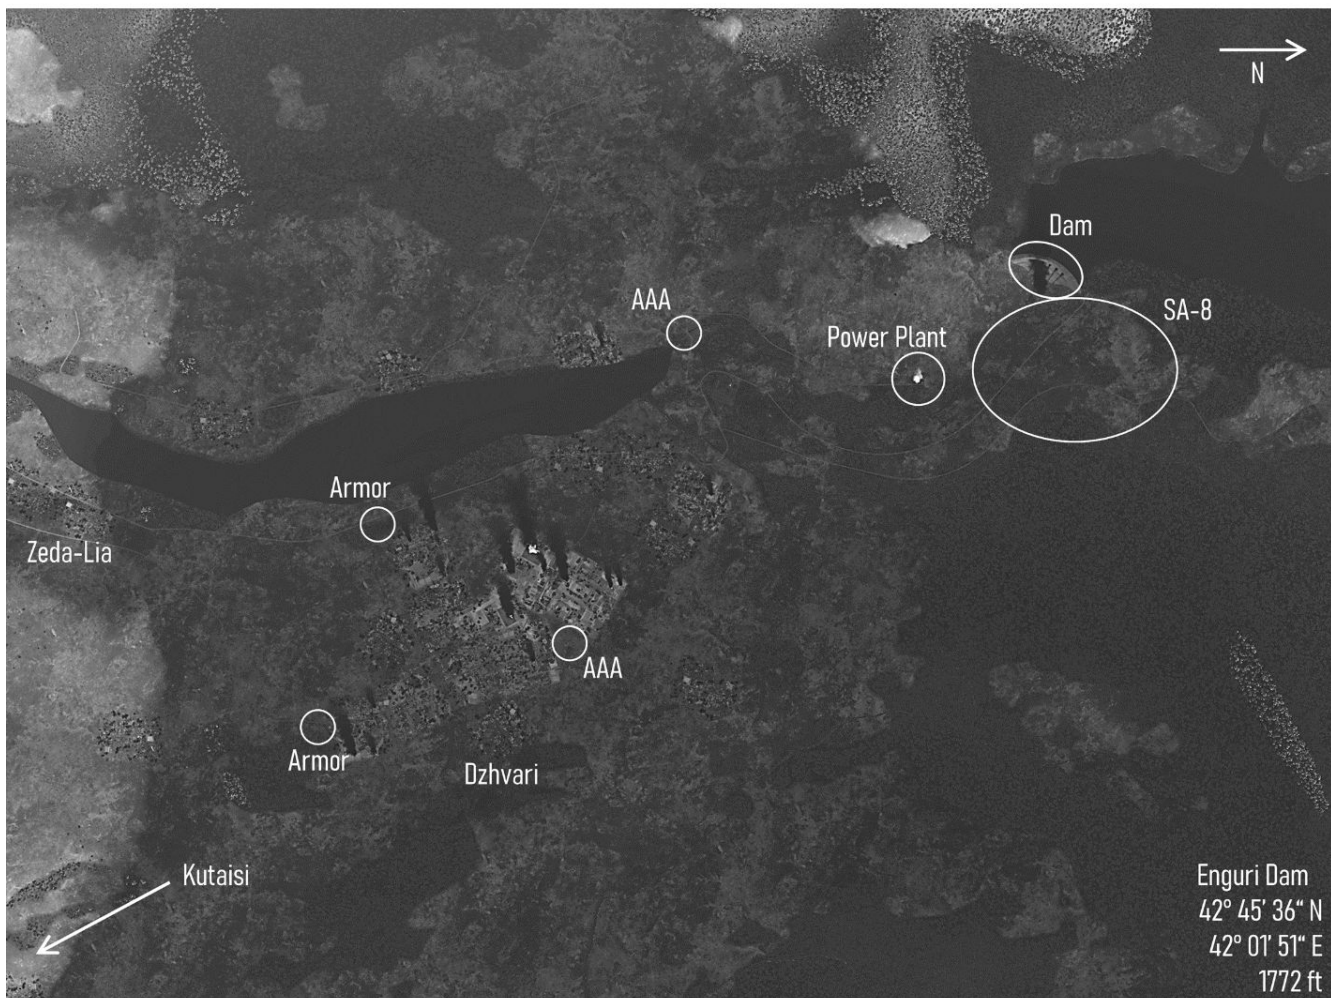

**Enguri Dam (JTAC: 1682):**

insurgent occupied power plant (WP2)
